## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 26-27 are rejected under 35 U.S.C. 101 because

**Preamble claim** lacks proper support in the specification, i.e., the specification does not state what type of “a computer readable medium” in which the computer program is embodied on and that without an explicit definition in the specification, it is given its broadest reasonable interpretation, typically covers forms of non-transitory tangible media and transitory propagating signal per se., carrier wave etc, Therefore, the claimed invention is directed to non-statutory subject matter

### ***Allowable Subject Matter***

2. Claims 1-24, 28-33 are allowed.
